02nd ISIDOG CONGRESS

DEAR COLLEAGUE,

It is our pleasure to invite you to attend the 02nd ISIDOG Congress from 26th October 2017 to 29th October 2017 in Vienna hosted by the Austrian Commission of European Society for Infectious Diseases (ESIDOG) in cooperation with the Austrian Society of Obstetrics and Gynaecology (OEGGG) and the International Society for Infectious Diseases (ISIDOG).

Our team plans a very interactive and stimulating program for all attendees, including an international schedule in English as well as a local part lectured in German.

We will offer opportunities to explore breakthroughs in research, daily clinical practice, share creative and stimulating ideas, make valuable connections and obtain inspired perspectives from all members interested in therapy of gynaecological infections. The plenary sessions feature presentation by experts across disciplines on a wide range of clinical and research topics.

The four-day event will provide excellent networking opportunities and innovative learning experience, highlighting the state-of-the-art, evidence-based developments in infectious diseases.

OUR GOALS FOR THE CONFERENCE ARE:

- Participate in outstanding educational sessions, hands-on practice and interactive debates.
- Collaborate with members of multinational teams to solve complex problems, reduce barriers and improve therapy standards.
- Preview the current technologies, products and services provided by numerous exhibitors.

We would like to welcome you in Vienna and would like to serve you a magnificent stay in our picturesque city in the hub of Europe.

Sincerely,

Ljubomir Petricevic, MD
Congress President

Gilbert Donders, MD
President of ISIDOG

Herbert Kiss, MD, MBA
President of the ESIDOG Austria

02nd ISIDOG CONGRESS

Thursday, 26th October, 2017

Abstract Submission

Abstracts may be submitted between 31st March and 23th July 2017
via www.mondial-congress.com/en/isidog17

Notifications of acceptance and information regarding presentations
will be forwarded to the authors immediately after the reviewing
process by the end of July/beginning of August 2017. All accepted
abstracts should be presented orally within the poster sessions.

Please consider the following guidelines:

- Language: English
- Title: max. 25 words
- Length: max. 250 words
- Structure: Background, Methods, Results, Conclusions

For an abstract to be included in the final scientific programme, it
is mandatory for the presenting author to register for the congress
and to settle payment before Friday, August 11, 2017.
